FOR IMMEDIATE RELEASE

FTI presents training sessions at IFE's International Fastener & Assembly Summit on October 7, 2026

GLENDALE, CA (July 21, 2026) – The Fastener Training Institute (FTI) will host three training sessions at the International Fastener Expo's international Fastener Assembly & Summit on October 7, 2026.

This flexible learning experience features three of FTI's most requested technical programs. Students can choose one or multiple sessions to best match responsibilities and interests - or attend all for a full day of in-depth training and networking.

International Fastener & Assembly Summit

Three sessions + networking

 **International Fastener Expo**

**OCTOBER 7, 2026
PHOENIX, AZ**

Sessions:

Morning: Advanced Joint Design: Preload, Torque & Tension Control

Afternoon: Quality Systems that Create Competitive Advantage

Late Afternoon: Corrosion Control Strategies for Harsh Environments

Evening: Networking Reception

Laurence Claus, the Industrial Fasteners Institute's director of education and training, will instruct the sessions sponsored by Star Stainless.

These training opportunities are designed for engineers, quality managers, manufacturing professionals, technical sales representatives, product managers, purchasing & supply chain professionals, distributors, OEM personnel and anyone wanting to strengthen fastener technical knowledge.

Register early! The cost for the summit varies by registration date but is all-inclusive with access to all educational sessions, expo hall and

welcome party. [Learn more](#) and [register directly with the International Fastener Expo](#).

[Würth Industry USA](#), FTI's Sustaining Sponsor since 2019, is key to all training offerings from FTI.

About [Fastener Training Institute](#)

The Fastener Training Institute is a nonprofit organization that provides beginning and advanced training on fastener products, standards and specifications. Its core purpose is to enhance fastener use, reliability and safety with a mission to make industry professionals more knowledgeable about the fastening products they buy, sell, specify or use.
