2026 FASTENER TRAINING WEEKS

Fastener Training Week is FTI's advanced fastener training program that leads to Certified Fastener Specialist™ designation, the most noteworthy measurement of technical aptitude for fastener professionals. Join us for one of three sessions in 2026.

FEBRUARY 9-13

Cleveland, OH, at the Industrial Fasteners Institute

Our first 2026 session includes notable in-person tours in the beautiful mid-west and exceptional learning space at our long-standing industry partner's headquarters, just outside of Cleveland.

MAY 4-8

Charlotte, NC, with Fastener Fair USA

Combine training with Fastener Fair USA. It features virtual tours and in-depth presentations from FTI suppliers—including a quality lab, cold header and secondary processor. Registration includes entry to Fastener Fair and the networking party.

AUGUST 31- SEPTEMBER 4

Chicago, IL, part of MWFA's FSTNR Week

Highlights of Fastener Training Week in the Windy City include networking during the FSTNR show and several in-person tours.
