## BASICS OF MANUFACTURING STAINLESS STEEL FASTENERS

WEBINAR | OCTOBER 21 | 1-3 PM EST

**The Fastener Training Institute and Industrial Fasteners Institute** present a live, two-hour training teaching the basics of manufacturing stainless steel fasteners. The webinar is a fit for any participant whose company produces or wishes to produce stainless steel parts and anyone wanting to learn more about making stainless steel parts, regardless of their role in the company.

### WHAT WILL BE TAUGHT?

Each topic will be explored in depth with opportunities for Q&A.

- Unique qualities of stainless steel
- How the five different categories of stainless steel compare and differ
- The manufacturing process from raw material to finished product
- Stainless steel raw material, heading and passivation
