FASTENER TRAINING **INSTITUTE** 

# FASTENER TRAINING WEEK

## FEBRUARY 21 - 25, 2022 | CLEVELAND, OH

### **ACCELERATED TRAINING FOR THE FTI CERTIFIED FASTENER** SPECIALIST<sup>™</sup> (CFS) DESIGNATION

Fastener Training Week features learning labs, interactive exercises and quizzes to reinforce learning taught by leading industry experts. The content includes manufacturing processes, consensus standards, quality control and includes a day of plant tours of manufacturing, secondary processes and testing facilities.

Instead of seven separate one-day classes, Fastener Training Week offers five intensive days of education and plant tours as part of the acclaimed FTI Certified Fastener Specialist™ (CFS) advanced technical training program. After completing this invaluable industry training in a small group environment and passing a final exam, attendees are eligible for the Certified Fastener Specialist<sup>™</sup> (CFS) designation.

#### WHO ATTENDS?

- Fastener distributors
- End users • Fastener manufacturers **OEMs**

#### **TOPICS:**

- Thread and material specifications
- Process and dimensional specifications
- Quality assurance systems and specifications
- Lot traceability and test reports
- Print reading and tolerances
- Thread gaging and dimensional inspection
- Torgue tension

Plant tours will take place on the third day of training.

### PRICING

\$3,300 first person per company \$2,800 each additional person per company

Prices increase \$500 February 7

Additional \$500 discount for Pac-West, NFDA, IFI, MWFA, NCFA SFA, AIM Prime members

**Industrial Fasteners Institute** 6363 Oak Tree Blvd. Independence, OH 44131

The CFS program drastically shortened my learning curve regarding fastener specifications. The program materials were well organized and professional. Each instructor was very knowledgeable and infused the lesson topics with real world examples. CFS is a great program taught by excellent instructors."

This course helped me gain a solid understanding of mechanical engineering and develop the technical knowledge important to this field. It also makes me realize the complexities and challenges we face, and that makes the work even more interesting.

FASTENER

TRAINING

INSTITUTE

After completing this invaluable industry training in a small group environment and passing a final exam, attendees are eligible for the Certified Fastener SpecialistTM (CFS) designation.

### **COURSE CONTENT**

#### Monday

- Introduction and course overview
- Consensus standards organizations
- IFI resources
- Torque tension
- Torque tension demonstration

### Tuesday

- Acquiring specifications
- Quality assurance systems and sampling plans
- Basic fastener math
- Threaded technology and gage issues
- Testing standards, fastener finishes and inspecting fastener dimensional features
- Hands-on equipment experience
- Certifications, test reports and lot traceability

#### Wednesday

- Print comprehension
- Metric fasteners
- Stainless steel
- Technology connection
- Plant tours

### Thursday

- Tour recap
- Metallurgy
- Material spec and deep dive J429

FASTENER TRAINING WEEK

- Materials ISO 898 Parts 1 and 2
- Dimensional specification
- Fastener failure
- CFS test information
