FASTENING 101

CHARLOTTE, NC | JULY 13-15, 2020 | FASTENER FAIR USA 2020

Charlotte, North Carolina, one of the biggest manufacturing hubs in the U.S., hosts the third annual Fastener Fair USA, a trade show dedicated to the industry's full supply chain.

Fastening 101: Understanding the Basics of Threaded Fasteners and the Industry that Produces Them

MONDAY, JULY 13

Class: 8:30 a.m. – 2:30 p.m.

Exclusive Tour: 3:00 p.m. – 6:00 p.m.

Networking

and Happy Hour: 6:00 p.m.

Industry expert Laurence Claus leads this day-long intensive training opportunity for fastener users, distributors, purchasers, engineers, sales and manufacturers. This must-take class covers manufacturing processes, consensus standards, quality control, product and design fundamentals.

This class is a fit for anyone in the fastener industry interested in broadening their knowledge and attendees will discover much more than the basics. Fastening 101 offers a thorough understanding of the fastener industry, including products, applications, industries and more. This class is intended for industrial, automotive, aerospace and military users.

TOPICS INCLUDE:

- Fastener Design & Material Options
- Head Styles & Drive Features
- Heat Treatments, Platings & Coatings
- Market Segments
- Cost Differences Between Fasteners
- Basic Fastener Engineering Concepts
- Torque, Tightening, Tension, Stress and Bolt Strength

The class will conclude with exclusive tour of BLUM Inc., an innovative, local family-owned company with a 450,000-square-foot facility that is capable of metal stamping, powder coating, injection molding and automated assembly processes.
