Fundamentals of Fastener Plating & Coating

WEBINAR | SEPTEMBER 22 | 1-3 PM EST

FUNDAMENTALS OF FASTENER PLATING AND COATING

The Fastener Training Institute and Industrial Fasteners Institute are partnering again to bring you a live webinar to cover the fundamentals of plating and coating fasteners. In addition to anyone new to the fastener industry, this virtual learning opportunity will be beneficial to those in **product quality, materials, new part launch, technical sales, manufacturing and engineering.**

COURSE MATERIAL

Each topic will be explored in depth with opportunities for Q&A.

Protection

- Protective mechanism categories utilized by platings and coatings
- Protecting fasteners from corrosion
- Types of platings and coatings
- Processes to deposit platings and coatings onto fasteners

Regulations

- Government regulations
- Environmental protection
- Challenges
- Innovations
- How the fastener and surface finishing industries are affected

Issues

- Common failure and/or quality challenges
- Testing and validation
- Hydrogen embrittlement prevention and how it's being addressed

DETAILS
